

## Master in Counseling Psychology

**Program Description & Objectives:** The Master in Counseling Psychology program is a practice program, the goal of which is to form counseling psychologists who can competently deliver psychological services in the form of assessment, intervention and evaluation.

**Target:** The program is intended for those who wish to become counselors, school psychologists, industrial counselors and/or those who will handle psychological assessment in various settings.

**Admission Requirements:** Applicants need to take the Ateneo Graduate admission test, MMPI test and undergo an interview. A one-year work experience is required before admission into the program.
