PRIMER ON THE FAMILY CONFERENCE

The Ateneo de Manila Basic Education graduate is a young individual who was molded by Ignatian tradition and pedagogy into a future leader, a nation builder, and a catalyst of progress in the global community (cf. Profile of the ADMU-Basic Education Graduate). The Ateneo believes that this can be achieved through a close collaboration of the school with the home as the formation of the young is primarily the responsibility of the family. The school gives support to and complements the home but can never and should never supplant it.

1. What is the family conference?
