| EC 290 Input-Output Economics | 3 |
| EC 295 Comparative Economic Systems | 3 |

IV. Program of Studies

The following is the suggested program of studies for full-time students (it is possible to pursue the M.A. on part-time basis):

Year 1

First Semester

Ec205 Mathematical Economics
Ec210 Statistics for Economists
Ec215 Price and Allocation Theory
Ec220 Macroeconomic Theory

Second Semester

Ec217 Econometrics
Ec275 International Economics
Ec280 Economics of Development
Elective 1

Summer

Comprehensive Examination (Part I and Part II)

Year 2

First Semester

Ec232 Economic Research
Elective 2
Elective 3
Elective 4

V. Comprehensive Examination

- a. Upon satisfactory completion of all his/her required academic units, the student should formally apply to take a comprehensive examination covering the following topics:

Part I : EC 215 and EC 220

Part II : Any of the following courses: EC 205, EC 210, EC 217, EC275, EC 280 or a field of specialization (elective) of the student's choice.

- b. The comprehensive examination is administered by the Office of Graduate School Services in two (2) installments on two (2) consecutive Saturdays. Examinations are scheduled three (3) times a years: towards the end of the two regular semesters and towards the end of the summer session. Students must take both Parts in the comprehensive examination in one scheduled sitting.
- c. Students who have formally applied to take the comprehensive examination, but who later find themselves unable to do so, must notify the Chair of the Department of Economics in writing at least one (1) week in advance of the scheduled examination date. Failure to do so will mean an automatic failing mark.
- d. Students are permitted two attempts at the comprehensive examination. Repeated failures mean forfeiture of the M.A. candidacy.

VI. Special Topics Research Report

All students in the M.A. no-thesis track are required to enroll in EC 232 and submit a research paper. Thesis track and no-thesis track students have the same requirements in EC 232.

The research paper has to be 30 to 50 pages in length, exclusive of bibliography, footnotes, and appendices. The assigned faculty teaching the course approves the research topic, monitors its development, and grades the written report.

In addition, two copies of the approved and final version of the research paper in durable binding are to be submitted to the Department of Economics.

To qualify for graduation, the student must be enrolled during the semester of completion of research report or any course requirements.

VII. Summary

| | |
|----------------------------|----------|
| I. Required Courses | 9 |
| II. Field of Concentration | 15 |
| III. Electives | 12 |
| | ----- |
| Total..... | 36 units |
